

# MONOPOLIEWINST GRAFISCH

**Op basis van de grafische analyse kunnen we vaststellen:**

$$\left. \begin{array}{l} Q^* = 4 \\ P^* = \text{€}900 \end{array} \right\} \text{MO} = \text{MK}$$

$$\text{TO} = P^* \cdot Q = 900 \cdot 4 = \text{€}3.600$$

$$\text{TK} = \text{GK} \cdot Q = 700 \cdot 4 = \text{€}2.800$$

$$\text{TW} = \text{TO} - \text{TK} = \text{€}800$$
